

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ramon Aguilera
DOCKET NO.: 07-24294.001-R-1
PARCEL NO.: 14-19-429-033-0000

The parties of record before the Property Tax Appeal Board are Ramon Aguilera, the appellant, by attorney Edward Larkin, of Larkin & Larkin in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,621
IMPR.: \$ 53,832
TOTAL: \$ 70,453

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 108 year old, two-story, frame, multifamily dwelling. It contains 2,664 square feet of living area and is situated on a 4,643 square foot lot. Features include a full finished basement, a two-car garage, and three bathrooms.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted descriptions and assessment information regarding three suggested comparable properties located on the subject's block. The suggested comparables are described as two-story, frame, or frame and masonry, multifamily dwellings that range in age from 106 to 113 years old and range in size from 3,048 to 3,567 square feet of living area. Features include a partial or full finished or unfinished basement, three bathrooms, and a two-car garage. These properties have improvement assessments that range from \$15.72 to \$17.76 per square foot of living area. The subject's improvement assessment is \$20.21 per square foot of living area.

Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of \$70,353 was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information regarding four suggested comparable properties located in the subject's neighborhood code with one located on the subject's street. The suggested comparables consist of two-story, frame, multifamily dwellings that range in age from 98 to 113 years old and range in size from 2,475 to 2,786 square feet of living area. Features include a full unfinished or finished basement, a two-car garage, and air conditioning. These properties have improvement assessments that range from \$20.77 to \$23.23 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of seven comparable properties for the Board's consideration. The Board finds the comparables submitted by the board of review are the most similar to the subject in size, design, and style. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$20.77 to \$23.23 per square foot of living area. The subject's improvement assessment of \$20.21 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d. 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing

evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
