

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sumner Lyon
DOCKET NO.: 07-24431.001-R-1
PARCEL NO.: 05-34-215-004-0000

The parties of record before the Property Tax Appeal Board are Sumner Lyon, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 22,720
IMPR.: \$ 82,150
TOTAL: \$ 104,870**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 2,650 square feet of living area. The dwelling is 77 years old, and it has a full, finished basement, a fireplace, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as frame or stucco dwellings that range in age from 95 to 101 years old. The appellant did not disclose the number of stories for each comparable; however, they have the same classification code as the subject. Each comparable has a classification code of 2-06 under the Cook County Real Property Assessment Classified Ordinance, Two or more story residence, over 62 years of age, 2,201 to 4,999 square feet. The dwellings range in size from 2,454 to 2,912 square feet of living area. Each comparable has a garage and a fireplace, and two dwellings have central air conditioning. However, the appellant did not provide any information on the comparables' foundations. The comparables have improvement assessments ranging from \$18.58 to \$23.35 per square foot of living area. The subject's improvement assessment is \$31.00 per square foot of living area. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 70 to 86 years old. The dwellings range in size from 2,448 to 2,688 square feet of living area. One comparable has a full, unfinished basement, and three have finished basements, either full or partial. Each comparable has a garage and one or two fireplaces. These properties have improvement assessments ranging from \$29.20 to \$32.80 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables differed from the subject in age and exterior construction and received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in age, size, exterior construction, and foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$29.20 to \$32.80 per square foot of living area. The subject's improvement assessment of \$31.00 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
