

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Purcell  
DOCKET NO.: 07-24554.001-R-1  
PARCEL NO.: 13-03-301-018-0000

The parties of record before the Property Tax Appeal Board are John Purcell, the appellant, by attorney Michael E. Crane, of Crane & Norcross in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$12,439  
**IMPR.:** \$54,708  
**TOTAL:** \$67,147

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a 2-story dwelling of frame and masonry construction containing 2,845 square feet of living area. The dwelling is 69 years old. Features of the home include a full, unfinished basement, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on five comparable properties described as 2-story masonry or frame and masonry dwellings that range in age from 67 to 82 years old. The comparable dwellings range in size from 2,203 to 3,823 square feet of living area. All comparables feature full, unfinished basements. Four have 1, 2, or 2½-car garages. Two of the comparables have central air conditioning, and four have fireplaces. The comparables have improvement assessments ranging from \$10.20 to \$17.43 per square foot of living area. The subject's improvement assessment is \$19.23 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of 2-story frame and masonry dwellings that range in age from 66 to 80 years old. The dwellings range in size from 2,292 to 3,088 square feet of living area. Three of the comparables feature full basements, one of which is finished. One comparable has a partial, finished basement. Three have central air conditioning and fireplaces. All four have 1 or 2-car garages. These properties have improvement assessments ranging from \$19.29 to \$23.44 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Three of the appellant's comparables did not match the subject's external construction, and therefore were given less weight in the Board's analysis. The Board finds appellant's comparable #5 and board of review comparable #3 not as similar to the subject in size. The Board finds comparable #4 submitted by the appellant and comparables #1, #2, and #4 submitted by the board of review were most similar to the subject in location, style, external construction, size, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$17.42 to \$23.44 per square foot of living area. The subject's improvement assessment of \$19.23 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
