

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris & Kathleen Kornely
DOCKET NO.: 07-24600.001-R-1
PARCEL NO.: 09-35-112-014-0000

The parties of record before the Property Tax Appeal Board are Chris & Kathleen Kornely, the appellants, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 10,800
IMPR.: \$ 84,060
TOTAL: \$ 94,860**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 3,049 square feet of living area. The dwelling is two years old. Features of the home include a full, unfinished basement, central air conditioning, two fireplaces, and a two and one-half car garage.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on four comparable properties described as two-story frame, masonry, or frame and masonry dwellings that range in age from one to fifty-five years old. The comparables have the same assigned neighborhood code as the subject. The comparable dwellings range in size from 2,608 to 3,142 square feet of living area. Each comparable has central air conditioning; three have two or three fireplaces; and three have a garage. However, the appellants did not provide any information on the comparables' foundations. The comparables have improvement assessments ranging from \$21.18 to \$24.26 per square foot of living area. The subject's improvement assessment is \$27.57 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story masonry dwellings that are either four or seven years old. The comparables have the same assigned neighborhood code as the subject, and two are located one-quarter mile from the subject. The dwellings range in size from 3,074 to 3,426 square feet of living area. Each comparable has a two-car garage, central air conditioning, one or two fireplaces, and a full basement, one of which is finished. These properties have improvement assessments ranging from \$27.62 to \$30.02 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellants' comparable numbered four and the comparable numbered one by the board of review differed from the subject in size and received reduced weight in the Board's analysis. The appellant's comparable numbered three was considerably older than the subject and also received reduced weight. The Board finds the appellants' comparables numbered one and two and the comparables numbered two and three by the board of review were most similar to the subject in size. They were also very similar in age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$21.18 to \$28.31 per square foot of living area. The subject's improvement assessment of \$27.57 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
