

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Barbara Knox
DOCKET NO.: 07-24604.001-R-1
PARCEL NO.: 05-31-221-022-0000

The parties of record before the Property Tax Appeal Board are Barbara Knox, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 5,030
IMPR.: \$ 13,198
TOTAL: \$ 18,228**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame construction containing 720 square feet of living area. The dwelling is 120 years old. Features of the home include a full, unfinished basement and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as one or one and one-half story frame or frame and masonry dwellings that range in age from 53 to 123 years old. Two of the comparables have the same assigned neighborhood code as the subject. The comparable dwellings range in size from 792 to 960 square feet of living area. Each comparable has a one or two-car garage. However, the appellant failed to provide any information on the comparables' foundations. The comparables have improvement assessments ranging from \$17.14 to \$19.13 per square foot of living area. The subject's improvement assessment is \$26.67 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on two comparable properties consisting of one or one and one-half story frame dwellings that are 42 and 53 years old. One of the comparables is located on the same block as the subject, and the other is located one-quarter mile away. The dwellings contain 918 and 902 square feet of living area, respectively. One has a slab foundation, central air conditioning, and a one-car garage, and the other has a full, finished basement, a fireplace, and a two-car garage. These properties have improvement assessments of \$31.30 and \$30.69 per square foot of living area, respectively. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

Both parties presented assessment data on a total of five equity comparables. The appellant's comparable numbered three and the two comparables submitted by the board of review were significantly newer than the subject and, as a result, received reduced weight in the Board's analysis. The Board finds that the appellant's comparable numbered one was the most similar to the subject in age and size. In addition, the appellant's comparable numbered two, although newer than the subject, was similar in style, exterior construction, and size. These comparables had improvement assessments of \$17.53 and \$19.13 per square foot of living area. The subject's improvement assessment of \$26.67 per square foot of living area falls above these assessments. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
