

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Erickson
DOCKET NO.: 07-24811.001-R-1
PARCEL NO.: 14-28-303-033-0000

The parties of record before the Property Tax Appeal Board are John Erickson, the appellant, by attorney Steven B. Pearlman, of Steven B. Pearlman & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 18,197
IMPR.: \$ 58,752
TOTAL: \$ 76,949

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,650 square foot parcel improved with a 118-year-old, one and one-half story, single-family dwelling of frame construction containing 1,632 square feet of living area and located in Lake View Township, Cook County. Features of the residence include two and one-half bathrooms, a full-finished basement, a fireplace and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of one and one-half story, single-family dwellings of frame

construction located within 0.6 miles of the subject. The improvements range in size from 1,606 to 1,690 square feet of living area and range in age from 113 to 128 years old. The comparables contain one and one-half, two or two and one-half bathrooms and a full-finished or unfinished basement. Two comparables have central air-conditioning and two comparables have a detached garage. The improvement assessments range from \$20.27 to \$24.55 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$76,949. The subject's improvement assessment is \$58,752 or \$36.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one and one-half story, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 1,552 to 1,725 square feet of living area and range in age from 118 to 124 years old. The comparables contain one or two full bathrooms and a full-unfinished basement. One comparable has a two-car detached garage. The improvement assessments range from \$36.85 to \$37.54 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The Board finds these properties similar to the subject in size, design, exterior construction, age and location. They have improvement assessments ranging from \$20.27 to \$37.54 per square foot of living area. The subject's per square foot improvement assessment of \$36.00 falls within the range established by these properties. In addition, the Board finds the subject's per square foot improvement assessment is lower than four of the seven properties offered for comparison. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
