

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Pradeep B. Patel
DOCKET NO.: 07-24972.001-R-1
PARCEL NO.: 27-25-208-035-0000

The parties of record before the Property Tax Appeal Board are Pradeep B. Patel, the appellant(s), by attorney David C. Dunkin, of Arnstein & Lehr in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,501
IMPR.: \$19,519
TOTAL: \$24,020

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 11,254 square foot parcel of land improved with a 18-year old, multi-level, frame and masonry, single-family dwelling containing 1,116 square feet of living area, two baths, a partial finished basement, and a two-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of four properties suggested as comparable with three of the properties located on the same street as the subject property. The properties are described as multi-level, frame and masonry, single-family dwellings with between one and one-half and two baths, a partial finished or unfinished basement, and one fireplace for two of the properties. The properties range: in age from 16 to 44 years; in size from 1,116 to 1,443 square feet of living area; and in improvement assessments from \$12.47 to \$14.82 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$19,519

or \$17.49 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable with two of the comparables located within one-quarter mile of the subject. The properties are described as multi-level, frame and masonry, single-family dwellings with between one and one-half and two and one-half baths, a partial finished basement, and one fireplace for three of the properties. The properties range: in age from 32 to 35 years; in size from 1,058 to 1,190 square feet of living area; and in improvement assessments from \$17.43 to \$17.94 per square foot of living area. Sales data was submitted for comparable #1 which sold in March 2005 for \$240,000 or \$201.68 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the board of review's comparables #1 and #2 and the appellant's comparables #2, #3, and #4 most similar to the subject in size, design, construction, and location. The properties are described as two-story, masonry or frame and masonry, single-family dwellings with between one and one-half and two and one-half baths, one fireplaces for four of the comparables, and a partial finished basement for four of the properties. The properties range: in age from 16 to 44 years; in size from 1,058 to 1,443 square feet of living area; and in improvement assessments from \$12.47 to \$17.94 per square foot of living area. In comparison, the subject's improvement assessment of \$17.49 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
