

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Angeliki Drakontaidis
DOCKET NO.: 07-25003.001-R-1
PARCEL NO.: 15-07-404-031-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Angeliki Drakontaidis, the appellant(s), by attorney Melissa K. Whitley, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 2,800
IMPR.: \$ 32,690
TOTAL: \$ 35,490

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 5,000 square foot parcel improved with a 46-year-old, two-story multi-family dwelling of masonry construction containing 3,620 square feet of living area with six full bathrooms. The subject is built on slab and located in Proviso Township, Cook County.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. At the hearing, the appellant's attorney withdrew the appellant's overvaluation claim. In support of the equity contention, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of multi-story, multi-family dwellings of frame or masonry construction located within four miles of the subject. The improvements range in size from 3,277 to 5,216 square feet of living area and range in age from 44 to 107 years old. The comparables contain three or six full bathrooms and a full-finished basement. One comparable has a

fireplace and a four-car detached garage. The improvement assessments range from \$6.26 to \$7.78 per square foot of living area.

At hearing, the appellant's attorney argued that the appellant's comparables are similar to the subject in age and amenities. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$35,490. The subject's improvement assessment is \$32,690 or \$9.03 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,089 to 3,588 square feet of living area and range in age from 44 to 48 years old. The comparables contain from three to six full bathrooms. Three comparables have a full-finished or unfinished basement. The improvement assessments range from \$9.11 to \$9.74 per square foot of living area.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has not overcome this burden.

The PTAB finds the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, location, amenities and age and have improvement assessments ranging from \$9.11 to \$9.74 per square foot of living area. The subject's per square foot improvement assessment of \$9.03 falls below the range established by these properties. The PTAB finds the appellant's comparables differ significantly from the subject in improvement size, age and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the PTAB finds the subject's improvement assessment is

Docket No: 07-25003.001-R-1

equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
