

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Johnson  
DOCKET NO.: 07-25041.001-R-1  
PARCEL NO.: 24-31-402-006-0000

The parties of record before the Property Tax Appeal Board are Robert Johnson, the appellant, by attorney Daniel R. Fusco, of Rock, Fusco & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$10,987  
**IMPR.:** \$52,516  
**TOTAL:** \$63,503

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story dwelling of frame and masonry construction containing 3,471 square feet of living area. The dwelling is 4 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a three-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as masonry or frame and masonry dwellings that are 6 years old. The comparable dwellings range in size from 3,175 to 3,640 square feet of living area. The appellant did not include any data concerning garages, basements, number of stories or air conditioning for the comparables. The comparables have improvement assessments ranging from \$12.88 to \$13.62 per square foot of living area. The subject's improvement assessment is \$15.13 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story

frame and masonry dwellings that range in age from 1 to 4 years old. The dwellings range in size from 3,421 to 3,592 square feet of living area. Features include full unfinished basements, central air conditioning, fireplaces, and two or three-car garages. These properties have improvement assessments ranging from \$15.13 to \$16.00 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by both parties were relatively similar to the subject in size and age with the comparables submitted by the board of review to be most similar in size overall. The appellant failed to provide information concerning the comparables' basement area, possible basement finish, design or style as to number of stories and garage data. Due to the lack of information for comparing to the subject, these comparables received less weight in the Board's analysis. The board of review submitted data on four comparables including the property located next to the subject. These comparables had improvement assessments that ranged from \$15.13 to \$16.00 per square foot of living area. The subject's improvement assessment of \$15.13 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the appellant has not proved with clear and convincing evidence that the subject's improvement assessment is not equitable. Therefore, the Property Tax Appeal Board finds a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
