

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dennis Bond  
DOCKET NO.: 07-25114.001-R-1  
PARCEL NO.: 01-12-303-102-0000

The parties of record before the Property Tax Appeal Board are Dennis Bond, the appellant, by attorney Liat R. Meisler, of Golan & Christie LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 1,736  
**IMPR.:** \$ 86,264  
**TOTAL:** \$ 88,000

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property contains a 3,617 square foot parcel of land improved with a two-story dwelling of frame and masonry construction containing 3,494 square feet of living area. The dwelling is three years old. Features of the home include two and one half-baths, air conditioning, a fireplace, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story or three-story frame, masonry or frame and masonry dwellings that range in age from 4 to 35 years old. These properties are located within neighborhood 12 or neighborhood 13. The comparable dwellings range in size from 2,202 to 2,684 square feet of living area and contain one and one half-baths to three and one half-baths, air conditioning, three properties have a fireplace, and a two-car to a three-car garage. The comparables have improvement assessments ranging from \$19.90 to \$22.33 per square foot of living area. The subject's improvement assessment is \$24.69 per square foot of

living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$88,000 was disclosed. The board of review submitted information on three comparable properties described as two-story frame and masonry dwellings that are four years old. These properties are all located on the same block as the subject property. The comparable dwellings contain 3,494 square feet of living area, a full unfinished basement, two and one half-baths, air conditioning, a fireplace, and a two-car garage. The comparables have improvement assessments ranging from \$25.51 to \$25.85 per square foot of living area. The subject's improvement assessment is \$24.69 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in location, style, size, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$25.51 to \$25.85 per square foot of living area. The subject's improvement assessment of \$24.69 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barret, 20 Ill.2d. 395 (1960). Although the comparables submitted by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed.

Docket No: 07-25114.001-R-1

Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
