

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sara Newman  
DOCKET NO.: 07-25160.001-R-1  
PARCEL NO.: 05-17-104-020-0000

The parties of record before the Property Tax Appeal Board are Sara Newman, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$65,900  
**IMPR:** \$152,984  
**TOTAL:** \$218,884

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 26,573 square foot parcel of land improved with a 32-year old, two-story, masonry, single-family dwelling which is owner-occupied. The improvement contains 5,259 square feet of living area, three full and one half baths, air conditioning, two fireplaces, a full unfinished basement and a two car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of four properties suggested as comparable. The properties are located 0.68 to 2.02 miles from the subject. The properties are improved with two-story, masonry, or frame and masonry, single-family dwellings. They range: in bathrooms from three full and one half to five full baths; in age from 16 to 39 years; in size from 5,032 to 5,618 square feet of living area; and in improvement assessment from \$15.16 to \$23.91 per square foot of living area. The subject's improvement assessment is \$29.09 per square foot. The properties also

contain: air conditioning, one to two fireplaces, full or partial, finished or unfinished basements, and two to four car garage area for the properties. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$152,984 or \$29.09 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable. The properties are improved with two-story, masonry, single-family dwellings. They range: in age from 32 to 81 years; in size from 5,218 to 5,341 square feet of living area; and in bathrooms from two and one half to four and one half baths. The properties also include partial or full unfinished basements, air conditioning, one to two fireplaces, and and two to three car garage area for the properties. The properties have improvement assessments ranging from \$29.09 to \$33.59 per square foot of living area. In addition, the board's analysis indicated that property #1 was accorded a deluxe condition ranking by the assessor's office while properties #2 #3 and #4 were accorded an average condition without further explanation. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1, #2, and #3 and the board of review's comparable #1 most similar to the subject in improvement size, design, and age. These comparables ranged in improvement assessments from \$15.16 to \$32.27 per square foot. The subject's improvement assessment at \$29.09 per square foot is within the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in age. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
