

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steve Ashmore
DOCKET NO.: 07-25170.001-R-1
PARCEL NO.: 05-27-112-001-0000

The parties of record before the Property Tax Appeal Board are Steve Ashmore, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$42,293
IMPR.: \$152,230
TOTAL: \$194,523

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 15,105 square foot parcel of land improved with an 84-year old, two-story, masonry, single-family dwelling which is owner-occupied. The improvement contains 4,480 square feet of living area, two full and two half baths, a fireplace, a full finished basement with a formal recreation room, and a two car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of four properties suggested as comparable. The properties are located 0.04 to 0.36 miles from the subject. The properties are improved with two-story, masonry or frame and masonry single-family dwellings. They range: in bathrooms from one and one half to four and one half baths; in age from 78 to 81 years; in size from 4,261 to 4,710 square feet of living area; and in improvement assessment from \$29.32 to \$35.84 per square foot of living area. The subject's improvement assessment is \$41.90 per square foot. The properties also contain: air conditioning for three properties, one or two fireplaces for the properties, full or partial, finished or

unfinished basements, and one or two car garage area for the properties. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$187,707 or \$41.90 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within the subject's neighborhood, two of which are within one quarter mile of the subject. The properties are improved with two-story, masonry, single-family dwellings. They range: in age from 70 to 82 years; in size from 2,560 to 4,153 square feet of living area; and in bathrooms from two and one half to three full and two half baths. The properties also include partial or full finished or unfinished basements, air conditioning for two properties, one to three fireplaces for the properties, and two car garage areas. The properties have improvement assessments ranging from \$41.97 to \$52.19 per square foot of living area. In addition the board's analysis indicated that properties #1 and #4 were accorded a deluxe condition ranking by the assessor's office while the subject and properties #2 and #3 were accorded an average condition without further explanation. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #2 #3 and #4 most similar to the subject in improvement size, design, and age. These comparables ranged in improvement assessments from \$32.99 to \$35.84 per square foot. The subject's improvement assessment at \$41.90 per square foot is above the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in improvement size, and condition. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is not supported and a reduction in the improvement assessment is warranted.

Docket No: 07-25170.001-R-1
