

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Elliott
DOCKET NO.: 07-25175.001-R-1
PARCEL NO.: 09-26-204-034-0000

The parties of record before the Property Tax Appeal Board are Mark Elliott, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,562
IMPR: \$131,780
TOTAL: \$146,342

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 13,002 square foot parcel of land improved with a seven-year old, two-story, masonry, single-family dwelling. The improvement contains 4,400 square feet of living area, and three and one-half baths. Additional features include air conditioning, two fireplaces, a full basement finished with a formal recreation room, and a three-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of six properties suggested as comparable. The properties are located within 1.40 miles of the subject. The properties are improved with two-story, masonry, single-family dwellings. The properties range in age from 4 to 12 years; contain from 4,230 to 4,645 square feet of living area with three and one-half to five full baths. The improvement assessments range from \$20.42 to \$25.38 per square foot of living area. The subject's improvement assessment is \$29.95 per square

foot of living area. The properties also contain: air conditioning, one or two fireplaces, full finished or unfinished basements, and one to three car garage areas. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$131,562 or \$29.95 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within one-quarter mile of the subject. The properties are improved with two-story, masonry or frame and masonry, single-family dwellings. The properties range: in age from 2 to 50 years; in size from 3,872 to 4,645 square feet of living area and have three and one-half to five full baths. The properties also include partial or full finished or unfinished basements, air conditioning, one to three fireplaces, and two or three car garage areas. The properties have improvement assessments ranging from \$30.02 to \$30.73 per square foot of living area.

In addition, the board's analysis indicated that property #4 was accorded a deluxe condition ranking by the assessor's office while the subject and properties #1, #2, and #3 were accorded an average condition without further explanation. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of ten properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #3, #4, #5 and #6, and the board of review's comparables #1, #2, and #3 most similar to the subject in improvement size, design, and age. These comparables ranged in improvement assessments from \$24.24 to \$30.73 per square foot. The subject's improvement assessment of \$29.95 per square foot of living area is within the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in property location, improvement size, condition and age. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not

demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
