

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Frank Calabrese
DOCKET NO.: 07-25198.001-R-1
PARCEL NO.: 09-26-204-071-0000

The parties of record before the Property Tax Appeal Board are Frank Calabrese, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$20,339
IMPR: \$144,840
TOTAL: \$165,179

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 18,160 square foot parcel of land improved with a three-year old, two-story, masonry, single-family dwelling. The improvement contains 7,242 square feet of living area, and four full and three-half baths. Additional features include air conditioning, two fireplaces, a full unfinished basement, and a three-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs on a total of five properties suggested as comparable. The properties are located within 1.71 miles of the subject. The properties are improved with two-story, masonry, single-family dwellings. The properties range in age from three to nine years and contain from 5,485 to 6,979 square feet of living area with four and one-half to six full and two half baths. The improvement assessments range from \$18.20 to \$23.00 per square foot of living area. The subject's improvement assessment is \$28.32 per square foot of living area. The properties also contain: air conditioning, two fireplaces, full

finished or unfinished basements, and two to three and one-half car garage areas. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$205,092 or \$28.32 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable and located on the subject's block. The properties are improved with two-story, masonry, single-family dwellings. The properties range in age from 8 to 17 years and in size from 5,522 to 8,041 square feet of living area with three full and two half baths to five full and two half baths. The properties also include full unfinished basements, air conditioning, two or three fireplaces, and three car garage areas. The properties have improvement assessments ranging from \$20.47 to \$26.27 per square foot of living area.

In addition, the board's analysis indicated that the subject as well properties #1, #2, and #3 were accorded a deluxe condition ranking by the assessor's office without further explanation. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #2, and #5, and the board of review's comparables #1, and #3 most similar to the subject in improvement size, design, and exterior construction. These comparables ranged in improvement assessments from \$18.91 to \$23.06 per square foot of living area. The subject's improvement assessment of \$28.32 per square foot of living area is above the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in property location, improvement size, and age. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is not supported and a reduction in the improvement assessment is warranted.

Docket No: 07-25198.001-R-1
