

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Timothy Edeling
DOCKET NO.: 07-25278.001-R-1
PARCEL NO.: 13-19-117-026-0000

The parties of record before the Property Tax Appeal Board are Timothy Edeling, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,993
IMPR.: \$ 26,540
TOTAL: \$ 33,533

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one and one-half story dwelling of masonry construction containing 2,080 square feet of living area. The dwelling is 54 years old. Features of the home include a full, unfinished basement and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as frame or frame and masonry dwellings that range in age from 76 to 83 years old. According to the appellant, each comparable has a classification code of 2-04, One Story Residence, any age, 1,801 square feet. The appellant's comparables are located between four and twelve blocks from the subject property. The comparable dwellings range in size from 2,220 to 2,688 square feet of living area. Each comparable has a garage; two have slab foundations; and one has a full, unfinished basement. The comparables have improvement assessments ranging from \$10.50 to \$11.66 per square foot of living area. The subject's improvement assessment is \$12.76 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one and one-half story masonry dwellings that range in age from 53 to 64 years old. Based on their parcel index numbers, the comparables are located in the same general vicinity as the subject. The dwellings range in size from 1,934 to 2,095 square feet of living area. Each comparable has a full, unfinished basement and a two-car garage. One dwelling has central air conditioning. These properties have improvement assessments ranging from \$13.62 to \$14.62 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables were much older than the subject, and they also differed in exterior construction. In addition, the appellant's comparables one and three differed in foundation, and comparable one also differed in size. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in size, style, exterior construction, foundation, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$13.62 to \$14.62 per square foot of living area. The subject's improvement assessment of \$12.76 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
