

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Moskai
DOCKET NO.: 07-25322.001-R-1
PARCEL NO.: 10-32-417-001-0000

The parties of record before the Property Tax Appeal Board are Thomas Moskai, the appellant(s), by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,139
IMPR.: \$53,710
TOTAL: \$62,849

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 7,140 square foot parcel of land improved with a 64-year old, two-story, masonry, single-family dwelling. The improvement contains 2,164 square feet of living area, two full baths, air conditioning, a fireplace, a partial unfinished basement and a two car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of three properties suggested as comparable. The properties are located within the subject's neighborhood, two of which are within five blocks of the subject. Each property is improved with a two-story, masonry or frame and masonry, single-family dwelling. They range: in bathrooms from one full to two full baths; in age from 66 to 67 years; in size from 1,868 to 2,164 square feet of living area; and in improvement assessment from \$16.85 to \$21.76 per square foot of living area. The subject's improvement assessment is \$24.82 per

square foot. The properties also contain: air conditioning for two properties, one fireplace for two properties, partial unfinished basements for two properties, and garage area for properties #1 and #3. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$53,710 or \$24.82 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within one quarter mile of the subject. The properties are improved with two-story, masonry, single-family dwellings. They range: in age from 66 to 69 years; in size from 1,911 to 2,168 square feet of living area; in bathrooms from one and one-half to two full baths. The properties also include full basements for three properties, two of which are finished with a formal recreation room, air conditioning for each property, one to three fireplaces for three properties, and one or two garage area. The properties have improvement assessments ranging from \$24.97 to \$27.74 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of seven properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1, and #2, and the board of review's comparables #1, #2 and #3 most similar to the subject in improvement size, design, proximity, exterior construction, and age. These comparables ranged in improvement assessments from \$16.85 to \$27.08 per square foot. The subject's improvement assessment at \$24.82 per square foot is within the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.
