

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Quick
DOCKET NO.: 07-25415.001-R-1
PARCEL NO.: 06-27-208-016-0000

The parties of record before the Property Tax Appeal Board are Quick, the appellant, by attorney Julie Realmuto of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,748
IMPR.: \$ 19,586
TOTAL: \$ 26,334

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of frame and masonry construction containing 1,345 square feet of living area. The dwelling is 28 years old. Features of the home include a crawl-space foundation, central air conditioning, a fireplace, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story frame dwellings that are either 17 or 18 years old. The comparable dwellings contain either 1,508 or 1,621 square feet of living area. Each dwelling has central air conditioning and a fireplace, and two have an unfinished basement. The appellant did not include any data concerning garages for the properties. The comparables have improvement assessments ranging from \$10.99 to \$12.24 per square foot of living area. The subject's improvement assessment is \$14.56 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of one-story frame and masonry dwellings that are either 36 or 38 years old. The dwellings range in size from 1,028 to 1,337 square feet of living area. Three comparables have finished basements, either full or partial, and one has a full, unfinished basement. Each comparable has a two-car garage; three have central air conditioning, and one has a fireplace. These properties have improvement assessments ranging from \$15.87 to \$16.54 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

All of the comparables submitted by both parties were very similar to the subject in style, and they were generally similar in age. However, the comparables submitted by the appellant were larger than the subject, and they also differed in exterior construction. As a result, the appellant's comparables received reduced weight in the Board's analysis. The comparable numbered four by the board of review was much smaller than the subject and also received reduced weight. The Board finds the comparables numbered one through three by the board of review were most similar to the subject in size and exterior construction. Although they differed from the subject in foundation, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$15.87 to \$16.03 per square foot of living area. The subject's improvement assessment of \$14.56 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
