

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris Novy  
DOCKET NO.: 07-25554.001-R-1  
PARCEL NO.: 04-34-413-109-0000

The parties of record before the Property Tax Appeal Board are Chris Novy, the appellant(s), by attorney Daniel R. Fusco, of Rock, Fusco & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 11,088  
**IMPR.:** \$ 93,152  
**TOTAL:** \$ 104,240

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property has 9,900 square feet of land, which is improved with a ten year old, two-story, masonry, single-family dwelling containing 3,128 square feet of living area. The subject includes two and one-half baths, air conditioning, a two and one-half-car garage, a fireplace, and a full unfinished basement. The subject is located in Northfield Township, Cook County. The appellant's appeal is based on unequal treatment in the assessment process.

In support of the equity argument, the appellant, via counsel, submitted descriptive and assessment information on three properties suggested as comparable to the subject. These properties are described as masonry or frame and masonry, single-family dwellings that are from 21 to 53 years old, and contain from 3,031 to 3,550 square feet of living area. Additionally, the suggested comparables have from two to two and one-half baths, and all of the properties have from one to two fireplaces. These suggested comparables have improvement assessments ranging from \$20.50 to \$22.71 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The Cook County Board of Review submitted its "Board of Review-Notes on Appeal" wherein the subject's final assessment of \$104,240 was disclosed. In support of the subject's assessment, the board of review presented descriptive and assessment information on four properties suggested as comparable to the subject. These properties are described as two-story, masonry, single-family dwellings that are from four to ten years old, and contain from 2,992 to 3,184 square feet of living area. Additionally, the suggested comparables have from two and one-half to three and one-half baths, all of the properties have a fireplace, air conditioning, a garage, ranging from a two-car to a two and one-half-car garage, and either a full unfinished basement, or a full basement with a formal recreation room. These suggested comparables have improvement assessments ranging from \$30.97 to \$35.56 per square foot of living area. The subject's improvement assessment is \$29.78 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of this appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Walsh v. Prop. Tax Appeal Bd., 181 Ill. 2d 228, 234 (1998) (citing Kankakee Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 131 Ill. 2d 1 (1989)); 86 Ill. Admin. Code § 1910.63(e). To succeed in an appeal based on lack of uniformity, the appellant must submit documentation "showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d 139, 145 (1st Dist. 2010); 86 Ill. Admin. Code § 1910.65(b). "[T]he critical consideration is not the number of allegedly similar properties, but whether they are in fact 'comparable' to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d at 145 (citing DuPage Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 284 Ill. App. 3d 649, 645-55 (2d Dist. 1996)). After an analysis of the assessment data, the Board finds that the appellant has not met this burden.

The Board finds that all of the comparables submitted by the board of review were most similar to the subject in location, size, style, exterior construction, features, and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$30.97 to \$35.56 per square foot of living area. The subject's improvement assessment of \$29.78 per square foot of living area is below the range established by the most similar comparables. Therefore, after considering adjustments and differences in both parties'

comparables when compared to the subject, the Board finds that the subject's improvement assessment is equitable, and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
