

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Frazier  
DOCKET NO.: 07-25670.001-R-1  
PARCEL NO.: 04-24-306-025-0000

The parties of record before the Property Tax Appeal Board are William Frazier, the appellant, by attorney Mitchell L. Klein of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$13,464  
IMPR.: \$39,444  
TOTAL: \$52,908**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one-story dwelling of frame construction containing 1,715 square feet of living area. The dwelling is 55 years old and has a concrete slab foundation. Features of the home include a fireplace.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as one-story frame dwellings that range in age from 50 to 61 years old. The comparable dwellings range in size from 1,685 to 1,789 square feet of living area. Each comparable has a concrete slab foundation. One comparable has central air conditioning. Two comparables have a fireplace and one comparable has two fireplaces. Two comparables have a 1-car garage and one comparable has a 2-car garage. The comparables have improvement assessments ranging from \$19.61 to \$26.19 per square foot of living area. The subject's improvement assessment is \$23.00 per square foot of living area<sup>1</sup>. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

---

<sup>1</sup> Appellant included their Home Improvement Exemption to arrive at \$26.98 per square foot of living area assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story frame dwellings that range in age from 53 to 57 years old. The dwellings range in size from 1,387 to 1,716 square feet of living area. One comparable has a full basement finished with a recreation room and one comparable has a partial unfinished basement. One comp has central air conditioning. Each comparable has a fireplace and a 2-car-garage. These properties have improvement assessments ranging from \$24.67 to \$28.63 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant argued the board of reviews' comparables #1, #2 and #3 differ in size, 23.6% 10% and 4% respectively. The comparables also differ in basement area; comparable #1 has a full basement finished with a recreation room, comparables #2 and #3 have a crawl space and comparable #4 has a partial basement. Comparable #2 has central air conditioning compared to the lack of central air conditioning for the subject. The comparables have 2-car garages compared to no garage for the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #1 and #3 submitted by the appellant and comparables #2 and #3 submitted by the board of review were most similar to the subject in age, features and/or size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$19.61 to \$26.06 per square foot of living area. The subject's improvement assessment of \$23.00 per square foot of living area is supported by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
