

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ken Lorch
DOCKET NO.: 07-25752.001-R-1
PARCEL NO.: 05-33-400-083-0000

The parties of record before the Property Tax Appeal Board are Ken Lorch, the appellant, by attorney Adam E. Bossov, of Law Offices of Adam E. Bossov, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,753
IMPR.: \$ 65,952
TOTAL: \$ 75,705

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 66-year old, two-story, Masonry, single-family dwelling. It contains 2,525 square feet of living area and is situated on a 6,096 square foot lot. Features include two and one half baths, four bedrooms, a full basement with a formal recreational room, two fireplaces, and an attached one-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted descriptive and assessment data, as well as black and white photographs, for five suggested comparables. The properties are improved with a two-story, frame or frame and masonry, single-family dwelling, all of which are located in the subject's neighborhood. They range: in age from 63 to 83 years; in size from 2,264 to 3,117 square feet of living area; and in improvement assessment from \$17.78 to \$24.58 per square foot of living area. The subject's improvement assessment is \$26.12 per square foot of living area. Amenities for the suggested

comparable properties include two or two and one half baths, a full or partial finished or unfinished basement, one fireplace, central air conditioning for one suggested comparable and a one or two-car garage. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review-Notes on Appeal" wherein the subject's improvement assessment of \$65,952 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment data relating to four suggested comparables located within the subject's neighborhood, one property within one-quarter mile of the subject and two properties located on the subject's block. The properties are improved with a two-story, masonry, single-family dwelling. They range: in age from 65 to 85 years; in size from 2,224 to 2,495 square feet of living area; and in improvement assessment from \$26.39 to \$26.82 per square foot of living area. Amenities for the properties include two full or two and one half baths, four bedrooms, a full, finished or unfinished basement, central air conditioning for two of the comparables, one or two fireplaces for three of the comparables, and a one-car garage.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of eleven comparable properties for the Board's consideration. The Board finds that comparables #1 through #3 submitted by the board of review are most similar to the subject in exterior construction, location, and/or amenities. In analysis, the Board accorded the most weight to these comparables. These comparables ranged in improvement assessment from \$26.39 to \$26.79 per square foot of living area. The subject's improvement assessment at \$26.12 per square foot is below the range established by these comparables.

After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and no reduction in the subject's assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require a mathematical equality. A practical, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables

presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
