

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Bell
DOCKET NO.: 07-25792.001-R-1
PARCEL NO.: 05-06-406-047-0000

The parties of record before the Property Tax Appeal Board are John Bell, the appellant, by attorney Anthony M. Farace of Amari & Locallo in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 34,720
IMPR.: \$ 70,700
TOTAL: \$ 105,420

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 3,662 square feet of living area. The dwelling is 57 years old and is described as being of deluxe quality. Features of the home include a full finished basement, central air conditioning, two fireplaces, and a two-car attached garage. The dwelling is located in Glencoe, New Trier Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of the overvaluation argument, the appellant submitted an appraisal report in which a market value of \$1,050,000 was estimated for the subject property as of January 1, 2007. The appraiser developed the sales comparison approach to estimate the market value of the subject property. The appraiser considered five comparable properties that are improved with two-story single-family dwellings that range in age from 11 to 87 years old and range in size from 3,448 to 3,791 square feet of living area. The comparable properties sold from June to December 2006 for prices that ranged from \$1,000,000 to \$1,175,000. The appraiser came to the conclusion that the subject's market value should be at the mid-range of these five sales, or \$1,050,000. The appellant's counsel requested that the 10% level of assessments on class 2 property in Cook County be applied to the appraiser's

finding of market value and that the subject's total assessment be reduced to \$105,000.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$171,899 was disclosed. The subject's assessment reflects a market value of \$1,712,141 or \$467.54 per square foot of living area, land included, using the 2007 three-year median level of assessments for Cook County Real Property Assessment Classification Ordinance Class 2 property of 10.04% as determined by the Illinois Department of Revenue. (86 Ill.Admin.Code 1910.59(c)(2)).

The board of review presented no market value evidence. Instead, the board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 56 to 62 years old. The comparables have the same assigned neighborhood and classification codes as the subject. The dwellings range in size from 2,737 to 3,658 square feet of living area. Each dwelling has a finished basement, either full or partial, central air conditioning, a fireplace, and a two-car garage. These properties have improvement assessments ranging from \$33.31 to \$46.29 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Board finds it has jurisdiction over the parties and the subject matter of the appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002). Proof of market value may consist of an appraisal of the subject property, a recent sale of the subject property or comparable sales. (86 Ill.Admin.Code 1910.65(c)). After an analysis of the evidence in the record, the Board finds a reduction in the subject's assessment is warranted.

The Board finds the appellant's appraisal report is the best evidence of the subject's market value as of the January 1, 2007 assessment date. The appraiser estimated a market value of \$1,050,000 for the subject property as of January 1, 2007. The subject's assessment reflects a market value of \$1,712,141 and is in excess of the market value estimate contained in the appraisal report. The board of review submitted four equity comparables but did not address or refute the overvaluation argument. Based on this record, the Board finds the subject has a market value of \$1,050,000 as of January 1, 2007, and the 2007 three-year median level of assessments for Cook County Real Property Assessment Classification Ordinance Class 2 property of 10.04% as determined

Docket No: 07-25792.001-R-1

by the Illinois Department of Revenue shall apply. (86
