

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John M. Hank
DOCKET NO.: 07-25811.001-R-1 through 07-25811.002-R-1
PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are John M. Hank, the appellant(s), by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

DOCKET NO	PARCEL NUMBER	LAND	IMPRVMT	TOTAL
07-25811.001-R-1	09-26-426-003-0000	11,296	62,558	\$73,854
07-25811.002-R-1	09-26-426-004-0000	6,200	0	\$6,976

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of two parcels of land; 8,825 square feet and 5,000 square feet respectively. The land is improved with a 104-year old, two-story, masonry, single-family dwelling which is owner-occupied. The improvement contains 2,539 square feet of living area, one and one half baths, air conditioning, a fireplace, a partial unfinished basement and a two car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of three properties suggested as comparable. The properties are located within six to ten blocks of the subject. The properties are improved with one or one and one half-story, masonry or frame and masonry, single-family dwellings with three full baths. They range: in age from 47 to 53 years; in size from 2,358 to 2,998 square feet of living area; and in improvement assessment from \$15.61 to \$20.93 per square foot of living area. The subject's improvement assessment is

\$24.64 per square foot. The properties also contain: air conditioning, one to two fireplaces for the properties, partial basements two of which are finished with a formal recreation room, and garage area for the properties. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$62,558 or \$24.64 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable, one of which is within one quarter mile of the subject. The properties are improved with two-story, masonry, single-family dwellings. They range: in age from 52 to 85 years; in size from 1,593 to 2,709 square feet of living area; and in bathrooms from one and one half to two and one half baths. The properties also include three full unfinished basements and one partial basement with a formal recreation room, air conditioning for one property, one to two fireplaces for two properties, and garage area for three properties. The properties have improvement assessments ranging from \$23.76 to \$26.49 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of seven properties suggested as comparable to the subject. The PTAB finds the board of review's comparables #1, #3 and #4 most similar to the subject in improvement size, design, proximity, exterior construction, and age. These comparables ranged in improvement assessments from \$24.99 to \$26.46 per square foot. The subject's improvement assessment at \$24.64 per square foot is below the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in design and age. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
