

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John F. Devaney
DOCKET NO.: 07-25841.001-R-1
PARCEL NO.: 09-25-120-018-0000

The parties of record before the Property Tax Appeal Board are John F. Devaney, the appellant, by attorney Lisa A. Marino, of Marino & Associates, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 11,424
IMPR.: \$ 33,076
TOTAL: \$ 44,500

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 8,400 square foot parcel of land improved with a 47-year old, one-story, masonry, single-family dwelling, which is owner-occupied. The improvement contains 1,717 square feet of living area as well as two full and one half-baths, a full basement, and a two-car garage.

The appellant argued that there was unequal treatment in the assessment process of the subject's improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptive and assessment data for three suggested comparables as well as black and white photographs. The properties are located in same suburb, as is the subject. Each property is improved with a one-story, single-family dwelling of masonry or frame and masonry exterior construction. They range: in bathrooms from one full bath to two full and one half-baths; in age from 47 to 65 years; in size from 1,462 to 2,018 square feet of living area; and in improvement assessments from \$13.61 to \$15.95 per square foot. Amenities include a partial or full basement, while properties #2 and #3 also contain a fireplace and

garage area. The subject's improvement assessment is \$19.26 per square foot of living area. In addition, the appellant's pleadings include a notation that the subject sold in May, 2007, for a price of \$445,000 without further explanation. Based upon this analysis, the appellant requested a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$44,500. The board of review submitted descriptive and assessment data relating to three suggested comparables located on the same block as is the subject or within a one-quarter mile's distance from the subject. The properties are improved with a one-story, masonry, single-family dwelling with two full and one half-baths. They range: in age from 47 to 49 years; in size from 1,645 to 1,788 square feet of living area; and in improvement assessments from \$22.57 to \$23.35 per square foot. The properties also include a full basement and a two-car garage. The board of review's grid also noted that the subject sold in August, 2005, for a price of \$568,000. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the arguments as well as reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the data, the Board finds that the appellant has not met this burden.

The Board finds that comparable #2 submitted by the appellant as well as comparables #1 through #3 submitted by the board of review are most similar to the subject in style, exterior construction, improvement size, age and/or amenities. In analysis, the Board accorded most weight to these comparables. These comparables ranged in improvement assessments from \$14.06 to \$23.35 per square foot of living area. The subject's improvement assessment at \$19.26 per square foot is within the range established by these comparables.

Further, the Board accorded diminished weight to the remaining properties due to a disparity in improvement size and age. In addition, the Board accorded no weight to the varying sale dates and values for the subject property as the parties' failed to proffer support documentation.

Therefore, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed and that the subject does not warrant a reduction in assessment.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
