

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Wes Chilicki  
DOCKET NO.: 07-25911.001-C-1  
PARCEL NO.: 18-13-303-010-0000

The parties of record before the Property Tax Appeal Board are Wes Chilicki, the appellant, by attorney Thomas J. Thorson in Oak Park, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$42,237  
**IMPR.:** \$54,963  
**TOTAL:** \$97,200

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 46,930 square foot parcel of land improved with a 5,400 square foot, 16-year old, one-story, masonry, industrial building. The appellant, via counsel, appeared before the Property Tax Appeal Board and argued that the fair market value of the subject was not accurately reflected in its assessed value.

In support of the market value argument, the appellant submitted an appraisal undertaken by Jennifer Soto-Burrell and James A. Matthews of James A. Matthews, Inc. The report indicates Soto-Burrell and Matthews are State of Illinois certified general appraisers. The appraisers indicated the subject has an estimated market value of \$270,000 as of January 1, 2007, using only the sales comparison approach to value. The appraisal finds the subject's highest and best use is its current use. The appraisal indicates the subject was inspected on April 18, 2008.

Under the sales comparison approach, the appraiser analyzed the sales of five one-story, industrial buildings located within the

subject's market. The properties contain between 7,527 and 13,600 square feet of building area. The comparables sold from December 2003 to February 2008 for prices ranging from \$380,000 to \$650,000 or from \$37.71 to \$52.21 per square foot of building area, including land. The appraiser adjusted each of the comparables for pertinent factors. Based on the similarities and differences of the comparables when compared to the subject, the appraiser estimated a value for the subject under the sales comparison approach of \$50.00 per square foot of building area, including land or \$270,000, rounded.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$116,638, was disclosed. The subject's final assessment reflects a fair market value of \$323,994, or \$60.00 per square foot of improvements including land when the Cook County Real Property Classification Ordinance for Class 5B property of 36% is applied. The board of review lists the subject as containing 5,400 square feet of living area. In support of the subject's assessment, the board of review presented CoStar Comps printouts for four suggested comparables. The properties contain between 4,728 and 6,000 square feet of building area. The comparables sold from July 2003 to September 2007 for prices ranging from \$295,000 to \$435,000 or from \$55.66 to \$85.00 per square foot of building area, including land.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3<sup>rd</sup> Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2<sup>nd</sup> Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the PTAB concludes that the evidence indicates a reduction is warranted.

In determining the fair market value of the subject property, the PTAB finds the best evidence to be the appellant's appraisal. The appellant's appraiser utilized the sales comparison approach to value in determining the subject's market value. The PTAB finds this appraisal to be persuasive for the appraiser: has experience in appraising; personally inspected the subject property and reviewed the property's history; and used similar properties in the sales comparison approach while providing sufficient detail regarding each sale as well as adjustments that were necessary. The PTAB gives little weight to the board of review's comparables as the information provided was unadjusted raw sales data.

Therefore, the PTAB finds the subject had a market value of \$270,000 for the 2007 assessment year. Since the market value of this parcel has been established, the Cook County Real Property Classification Ordinance level of 36% for Cook County Class 5B property will apply. In applying this level of assessment to the subject, the total assessed value is \$97,200 while the subject's current total assessed value is above this amount. Therefore, the PTAB finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
