

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Hulesch
DOCKET NO.: 07-25922.001-R-1
PARCEL NO.: 18-07-110-020-0000

The parties of record before the Property Tax Appeal Board are William Hulesch, the appellant, by attorney David D. Albee in Galena, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 21,430
IMPR.: \$ 74,230
TOTAL: \$ 95,660

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 2,855 square feet of living area. The dwelling is 84 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a one-car detached garage. The subject property is located in Hinsdale, Lyons Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on five comparable properties described as two-story masonry dwellings that range in age from 68 to 79 years old. The comparables have the same assigned neighborhood code as the subject. The comparable dwellings range in size from 2,260 to 3,269 square feet of living area. One dwelling has a full finished basement, and four have unfinished basements, either full or partial. Each comparable has central air conditioning, one to three fireplaces, and a two-car garage. The comparables have improvement assessments ranging from \$21.12 to \$26.32 per square foot of living area. The subject's improvement assessment is \$47.00 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 68 to 75 years old. Two of the comparables submitted by the board of review were also used as comparables by the appellant. The comparables have the same assigned neighborhood code as the subject. The dwellings range in size from 2,829 to 3,160 square feet of living area. One dwelling has a full finished basement, and three have unfinished basements, either full or partial. Each dwelling has a two-car garage and one or two fireplaces, and three have central air conditioning. These properties have improvement assessments ranging from \$25.83 to \$27.16 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

Both parties presented assessment data on a total of seven equity comparables. Two of the comparables submitted by the board of review were also used as comparables by the appellant. The Board finds that all of the comparables submitted by both parties were very similar to the subject in location, style, exterior construction, and age. However, the appellant's comparable numbered three was much smaller than the subject, and it received reduced weight in the Board's analysis. The remaining comparables were more similar to the subject in size. These comparables had improvement assessments that ranged from \$25.54 to \$27.16 per square foot of living area. The subject's improvement assessment of \$47.00 per square foot of living area falls above the range established by these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
