

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Laura Kelsey  
DOCKET NO.: 07-25944.001-R-1  
PARCEL NO.: 04-28-406-001-0000

The parties of record before the Property Tax Appeal Board are Laura Kelsey, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$12,312  
**IMPR:** \$89,490  
**TOTAL:** \$101,802

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 12,825 square foot parcel of land improved with a seven-year old, two-story, masonry, single-family dwelling. The improvement contains 4,710 square feet of living area, and four and one-half baths. Additional features include air conditioning, one fireplace, a full unfinished basement, and a three-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information, on a total of six properties suggested as comparable. The properties are located within one mile of the subject. The properties are improved with two-story, frame or masonry, single-family dwellings. The properties range in age from three to seven years and contain from 4,565 to 4,710 square feet of living area with three and one-half to four and one-half baths. The improvement assessments range from \$18.18 to \$20.85 per square foot of living area. The subject's improvement assessment is \$25.47 per square foot of living area. The properties also contain: air conditioning, one

or two fireplaces, full unfinished basements, and two to three-car garage areas. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$119,964 or \$25.47 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable and located within the subject's neighborhood. The properties are improved with two-story, masonry, single-family dwellings. The properties are three or four years old and in size from 3,814 to 4,561 square feet of living area and have three and one-half to five and one-half baths. The properties also include full, finished or unfinished basements, air conditioning, one or two fireplaces, and three car garage areas. The properties have improvement assessments ranging from \$26.23 to \$26.65 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The parties presented a total of nine properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1 #2 and #3 most similar to the subject in improvement size, design, and age. These comparables ranged in improvement assessments from \$18.18 to \$20.39 per square foot. The subject's improvement assessment of \$25.47 per square foot of living area is above the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
