

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kevin Smale
DOCKET NO.: 07-25993.001-R-1
PARCEL NO.: 05-26-103-029-0000

The parties of record before the Property Tax Appeal Board are Kevin Smale, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$29,061
IMPR: \$165,113
TOTAL: \$194,174

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 11,008 square foot parcel of land improved with a four-year old, two-story, masonry, single-family dwelling which is owner-occupied. The improvement contains 4,034 square feet of living area, four and one half baths, air conditioning, two fireplaces, a full finished basement with a formal recreation room, and a four car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of five properties suggested as comparable. The properties are located within one mile of the subject. The properties are improved with two-story, frame or frame and masonry, single-family dwellings. They range: in bathrooms from three and one half to three full and two half baths; in age from 3 to 10 years; in size from 3,845 to 4,282 square feet of living area; and in improvement assessment from \$28.38 to \$35.70 per square foot of living area. The subject's

improvement assessment is \$40.93 per square foot. The properties also contain: air conditioning, one or two fireplaces, full or partial, finished or unfinished basements, and a two or two and one-half car garage. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$165,113 or \$40.93 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable, one of which is on the subject block. The properties are improved with one or two-story, masonry or frame and masonry, single-family dwellings. They range: in age from 4 to 45 years; in size from 3,101 to 4,464 square feet of living area with two and one-half to five and one-half baths. The properties also include partial or full finished basements with a formal recreation room, air conditioning, one or two fireplaces, and two to four car garage areas. The properties have improvement assessments ranging from \$24.96 to \$43.64 per square foot of living area. In addition the board's analysis indicated property #3 was accorded a deluxe condition ranking by the assessor's office while the subject and properties #1 and #2 were accorded an average condition without further explanation. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of seven properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1, and #4, and the board of review's comparable #1 most similar to the subject in improvement size, design, and age. These comparables ranged in improvement assessments from \$28.38 to \$41.88 per square foot. The subject's improvement assessment at \$40.93 per square foot is within the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity improvement size, and condition. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.
