

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gary Blackman
DOCKET NO.: 07-25995.001-R-1
PARCEL NO.: 05-07-415-012-0000

The parties of record before the Property Tax Appeal Board are Gary Blackman, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$28,548
IMPR: \$98,302
TOTAL: \$126,850

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 11,895 square foot parcel of land improved with a 78-year old, two-story, masonry, single-family dwelling. The improvement contains 3,474 square feet of living area, three and one half-baths, air conditioning, a fireplace, a partial unfinished basement, and a two-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of four properties suggested as comparable. The properties are located within 0.63 to 1.15 miles from the subject. The properties are improved with two-story, frame or frame and masonry, single-family dwellings. They range: in bathrooms from two and one half to four full baths; in age from 80 to 99 years; in size from 2,976 to 3,414 square feet of living area; and in improvement assessment from \$14.04 to \$17.78 per square foot of living area. The subject's improvement assessment is \$28.30 per square foot.

The properties also contain: air conditioning for three properties, one or two fireplaces, full or partial finished or unfinished basements, and one or two-garage areas. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$98,302 or \$28.30 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable, one of which is within one quarter mile of the subject. The properties are improved with two-story, masonry, single-family dwellings. They range: in age from 65 to 80 years; and in size from 3,122 to 3,836 square feet of living area. The properties have two or three and one half baths. The properties also include partial or full, finished or unfinished basements, air conditioning for two properties, one or two fireplaces, and one or two-car garage areas. The properties have improvement assessments ranging from \$28.09 to \$29.44 per square foot of living area. In addition the board's analysis indicated that the subject as well as property #3 were accorded a deluxe condition ranking by the assessor's office while properties #1 #2 and #4 were accorded an average condition without further explanation. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #2, and #3, and the board of review's comparables #1 and #2 most similar to the subject in improvement size, design, and age. These comparables ranged in improvement assessments from \$15.50 to \$29.44 per square foot. The subject's improvement assessment at \$28.30 per square foot is within the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in property location and improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per

square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
