

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Weinstein
DOCKET NO.: 07-26001.001-R-1
PARCEL NO.: 01-10-404-008-0000

The parties of record before the Property Tax Appeal Board are Richard Weinstein, the appellant(s), by attorney Donald T. Rubin, of Rubin & Norris in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 22,685
IMPR.: \$ 79,793
TOTAL: \$102,478

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property contains a 189,050 square foot parcel of land improved with a one-story dwelling of frame or frame and masonry construction containing 3,960 square feet of living area. The property is 28 years old. Features of the home include four and one half-baths, two fireplaces, air conditioning, and two fireplaces.

The appellant's appeal is based on unequal treatment in the assessment process. In support of the equity argument, the appellant submitted information on three comparable properties described as one-story frame or frame and masonry dwellings that are located within ½ mile of the subject and range: in age from 36 to 75 years; in size from 3,495 to 3,780 square feet of living area; and in improvement assessments from \$14.29 to \$18.10 square feet of living area. Features include one to three fireplaces and a two and one-half to three and one-half car garage. The subject's improvement assessment is \$20.15 per square feet of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$102,478 was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of one-story, frame and masonry dwellings that are between 47 and 50 years old. The dwellings range in size from 1,940 to 2,962 square feet of living area. Features include one and one half-baths to two and one half-baths and one fireplace. These properties have improvement assessments ranging from \$20.67 to \$23.07 per square foot of living area.

In addition, the board provided sales data for comparable #1. It sold on October 1, 2005 for a price of \$786,300. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

As to the issue of the subject's age, the Board finds that the best evidence was submitted by the board of review via the property characteristic printout. Therefore, the Board finds that the subject is 28 years old.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #1 and #2 submitted by the appellant and comparable #1 submitted by the board of review were most similar to the subject in size, exterior construction and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$17.41 to \$20.67 per square foot of living area. The subject's improvement assessment of \$20.15 per square foot of living area is within the range established by the most similar comparables. Therefore, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
