

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jack Dellamore
DOCKET NO.: 07-26031.001-R-1
PARCEL NO.: 05-29-101-029-0000

The parties of record before the Property Tax Appeal Board are Jack Dellamore, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$115,739
IMPR.: \$93,248
TOTAL: \$208,987

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 55,644 square foot parcel of land improved with a 51-year old, one and one half-story, masonry, single-family dwelling. The improvement contains 3,968 square feet of living area, four and one half-baths, air conditioning, two fireplaces, a partial unfinished basement, and a two car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of five properties suggested as comparable. The properties are located 0.33 to 0.59 miles from the subject. The properties are improved with one or one and one half-story, frame, masonry, or frame and masonry, single-family dwellings. They range: in bathrooms from three to five and one half baths; in age from 46 to 54 years; in size from 3,893 to 4,135 square feet of living area; and in improvement assessment from \$11.81 to \$25.12 per square foot of living area. The subject's improvement assessment is \$32.30 per square foot.

The properties also contain: air conditioning, one to three fireplaces for the properties, full or partial basements with a formal recreation room, and two car garage areas for the

properties. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$128,165 or \$32.30 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable. The properties are improved with one or one and one half-story, masonry or frame and masonry single-family dwellings. They range: in age from four to 45 years; in size from 4,071 to 4,753 square feet of living area; and in bathrooms from three and one half to four and one half baths. The properties also include partial or full, unfinished basements, air conditioning, two or three fireplaces for each property, and garage area for the properties. The properties have improvement assessments ranging from \$32.70 to \$39.44 per square foot of living area. In addition the board's analysis indicated that the subject as well as properties #2 #3 and #4 were accorded a deluxe condition ranking by the assessor's office while property #1 was accorded an average condition without further explanation. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The parties presented a total of nine properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1, #2, #3 and #5 most similar to the subject in improvement size, design, proximity, and age. These comparables ranged in improvement assessments from \$11.81 to \$25.12 per square foot. The subject's improvement assessment at \$32.30 per square foot is above the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in property location, improvement size, condition, and design. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is not supported and a reduction in the improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
