

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert D. Schriver
DOCKET NO.: 07-26178.001-R-2
PARCEL NO.: 05-27-111-021-0000

The parties of record before the Property Tax Appeal Board are Robert D. Schriver, the appellant(s), by attorney Sonja R. Johnson, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$118,736
IMPR.: \$395,048
TOTAL: \$513,784

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 36,200 square foot parcel of land improved with a 44-year old, one-story, masonry, single-family dwelling containing 4,294 square feet of living area, four and one-half baths, air conditioning, two fireplaces, and a partial finished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of five properties suggested as comparable and located within four blocks of the subject. The properties are described as one-story, frame, masonry, or frame and masonry, single-family dwellings. Features of the homes include three or three and one-half baths, air conditioning for four properties, one or three fireplaces, and partial or full basements with one finished. The properties range: in age from 48 to 80 years; in size from 3,455 to 5,130 square feet of living area; and in improvement assessments from \$32.00 to \$75.00 per square foot of living area. Based on this

evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$395,048 or \$92.00 per square foot of living area was disclosed. In support of the subject's assessment, the board of review submitted descriptions and assessment information on a total of three properties suggested as comparable and located within the subject's neighborhood with one located on the subject's block. The properties are described as one or one and one-half story, masonry, single-family dwellings. Features of the homes include two and one-half to four baths, air conditioning, one or two fireplaces, and, for two properties a partial unfinished basement. The properties range: in age from four to 53 years; in size from 3,893 to 4,567 square feet of living area; and in improvement assessments from \$93.95 to \$116.36 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant submitted a letter arguing that the board of review's comparables #2 and #3 are not similar to the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1 and #5 and the board of review's comparable #1 most similar to the subject in size, age, and design. The properties are described as one-story, frame, masonry or frame and masonry, single-family dwellings located within four block's of the subject. The properties range: in age from 48 to 50 years; in size from 3,703 to 4,106 square feet of living area; and in improvement assessments from \$32.00 to \$99.34 per square foot of living area. In comparison, the subject's improvement assessment of \$92.00 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
