

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Bebonis
DOCKET NO.: 07-26208.001-R-1
PARCEL NO.: 04-24-103-047-0000

The parties of record before the Property Tax Appeal Board are William Bebonis, the appellant, by attorney George J. Behrens, of McCracken, McCracken & Behrens, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 30,550
IMPR.: \$ 79,345
TOTAL: \$ 109,895

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a masonry, one-story, single-family dwelling. It is 40 years old and contains 3,060 square feet of building area. Features include two-and-one-half baths, five bedrooms, and central air conditioning. The subject has a classification code of 2-04 under the Cook County Real Property Assessment Classification Ordinance, and it is located in Glenview, Northfield Township, Cook County.

The appellant, via counsel, contends assessment inequity. In support of the assessment inequity argument, the appellant submitted information regarding six suggested comparable properties located in the subject property's neighborhood. The suggested comparables are one or one and one-half story, frame, masonry, or frame and masonry constructed. They range in age from 51 to 59 years old and range in size from 2,914 to 3,991 square feet of living area. Features include a two to four-and-one-half baths, a full or partial basement, and central air conditioning for three properties. These comparables have improvement assessments that range from \$16.60 to \$20.97 per square foot of building area. The subject's improvement assessment is \$79,345 or \$25.93 per square foot of building area. Based on this evidence,

the appellant requested a reduction in the subject property's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein its final assessment of \$109,895 was disclosed. To demonstrate the subject was correctly assessed, the board of review presented descriptions and assessment information regarding four suggested comparable properties consisting of one-story, masonry, single-family dwellings located within the subject property's neighborhood. The suggested comparables range in age from 40 to 51 years old and range in size from 2,635 to 3,491 square feet of building area. Features include a full or partial basement area for three properties, two to three baths, and a two or two and one-half car garage. These properties have improvement assessments that range from \$26.97 to \$33.82 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal. The Board further finds the evidence in the record does not support a reduction in the subject's assessment.

The appellant argued assessment inequity as the basis of the appeal. Taxpayers who object to an assessment on this basis bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data the Board finds the appellant did not demonstrate unequal treatment by clear and convincing evidence.

The record contains descriptions and assessment information regarding ten comparables submitted by the parties. The Board finds the board of review comparables #3 and #4 and both of the appellant's comparables labeled #2 are the most similar to the subject property in design, size and amenities. These properties have improvement assessments that range from \$16.60 to \$32.61 per square foot of living area. The subject has an improvement assessment of \$25.93 per square foot of building area which is within the range established by the most similar comparables. Based on this record the Board finds a reduction in the subject's assessment based on assessment inequity is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
