

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Bisioulis  
DOCKET NO.: 07-26212.001-R-1  
PARCEL NO.: 04-25-100-060-0000

The parties of record before the Property Tax Appeal Board are John Bisioulis, the appellant(s), by attorney George J. Behrens, of McCracken, McCracken & Behrens, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$18,098  
**IMPR.:** \$79,209  
**TOTAL:** \$97,307

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 26,615 square foot parcel of land improved with a 60-year old, one-story, masonry, single-family dwelling containing 3,345 square feet of living area with two baths, a partial finished basement, air conditioning, one fireplace, and a two-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of five properties suggested as comparable and located in the subject's neighborhood. The properties are described as one or one and one-half story, frame, masonry, or frame and masonry single-family dwellings with between two and three and one-half baths, air conditioning for two of the properties, and one or two fireplaces for four of the properties. The properties range: in age from 51 to 59 years; in size from 2,914 to 3,668 square feet of living area; and in improvement assessments from \$16.60 to \$19.73 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$79,209 or \$23.68 per square foot of living area was disclosed. In

support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable with two located on the same block and the remaining two properties within quarter mile of the subject. The properties are described as one-story, masonry, single-family dwellings with between two and two and one-half baths, air conditioning, and 1 to 2 fireplaces. The properties range: in age from 49 to 56 years; in size from 2,598 to 3,289 square feet of living area; and in improvement assessments from \$23.70 to \$26.55 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of nine properties suggested as comparable to the subject. The PTAB finds the board of review's comparable #2 and the appellant's comparables #1 and #5 most similar to the subject in age, size, design, construction, and location. The properties are described as one or one and one-half-story, masonry or frame and masonry, single-family dwellings with between two and one-half and three baths, and one to two fireplaces. The properties range: in age from 51 to 59 years; in size from 3,289 to 3,435 square feet of living area; and in improvement assessments from \$16.60 to \$26.30 per square foot of living area. In comparison, the subject's improvement assessment of \$23.67 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
