

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jill & Douglas Hirsh
DOCKET NO.: 07-26371.001-R-1
PARCEL NO.: 04-12-201-042-0000

The parties of record before the Property Tax Appeal Board are Jill & Douglas Hirsh, the appellant(s), by attorney Anita L. Bryant, of Thompson Coburn LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$31,089
IMPR.: \$121,626
TOTAL: \$152,715

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 14,665 square foot parcel of land improved with a four-year old, two-story, masonry, single-family dwelling containing 4,194 square feet of building area, five and one-half baths, air conditioning, two fireplaces, and a full, finished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of nine properties suggested as comparable and located within the subject's neighborhood. The properties are described as two-story, frame, masonry, stucco or masonry and frame, single-family dwellings. Features include between three and one-half and six and one-half baths, air conditioning, one to four fireplaces, and, a partial or full basement with eight finished. The properties range: in age from 2 to 57 years; in size from 3,906 to 4,764 square feet of building area; and in improvement assessments from \$23.50 to \$29.11 per square foot of living area.

Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$142,192 or \$33.90 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable and located in the subject's neighborhood. The properties are described as two-story, masonry, single-family dwellings. Features include four and one-half or four and two-half baths, air conditioning, two or four fireplaces, and, a full, finished basement. The properties range: in age from three to four years; in size from 4,028 to 4,764 square feet of building area and in improvement assessments from \$28.64 to \$29.11 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant submitted a copy of the board of review's 2008 decision for the subject showing a reduced assessment of \$155,861. In addition, the appellant addressed the board of review's comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The parties presented a total of 12 properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #4, #7, #8, and #9 and the board of review's comparables most similar to the subject in design, age, size, and construction. The properties are described as two-story, masonry, single-family dwellings. The properties range: in age from two to four years; in size from 3,993 to 4,764 square feet of living area; and in improvement assessments from \$28.64 to \$29.11 per square foot of living area. In comparison, the subject's improvement assessment of \$33.90 per square foot of living area is above the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported and a reduction in the improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
