

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ken Celiano
DOCKET NO.: 07-26467.001-R-1
PARCEL NO.: 09-35-411-017-0000

The parties of record before the Property Tax Appeal Board are Ken Celiano, the appellant(s), by attorney Edward Larkin, of Larkin & Larkin in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,328
IMPR.: \$81,984
TOTAL: \$93,312

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 8,850 square foot parcel of land improved with an eight year old, two-story, frame, single-family dwelling containing 3,416 square feet of living area, two and one-half baths, a full unfinished basement, and a two-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of three properties suggested as comparable and located within the subject's neighborhood. The properties are described as two-story, frame, masonry or frame and masonry, single-family dwellings with two and one-half baths, partial or full unfinished or finished basements, and one or two fireplaces, and a two-car garage. The properties range: in age from two to 59 years; in size from 2,639 to 3,526 square feet of living area; and in improvement assessments from \$14.76 to \$23.60 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$84,852 or \$24.84 per square foot of living area was disclosed. In

support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable within the subject's neighborhood. The properties are described as two-story, frame, single-family dwellings with between two and one-half and three and two-half baths, a full or partial basement, and one fireplace. The properties range: in age from seven to eighteen years; in size from 3,455 to 3,761 square feet of living area; and in improvement assessments from \$22.25 to \$24.71 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant stated that the board of review's comparables are assessed lower than the subject and located miles from the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The parties presented a total of seven properties suggested as comparable to the subject. The PTAB finds the board of review's comparables #1 and #3 and the appellant's comparable #1 most similar to the subject in age, size, design, and location. The properties are described as two-story, masonry or frame, single-family dwellings with between two and one-half and three and two-half baths, one or two fireplaces, and a full or partial basement. The properties range: in age from seven to eighteen years; in size from 3,455 to 3,638 square feet of living area; and in improvement assessments from \$23.60 to \$24.71 per square foot of living area. In comparison, the subject's improvement assessment of \$24.84 per square foot of living area is above the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported and a reduction in the improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
