

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jozsef Vinczi  
DOCKET NO.: 07-26664.001-R-1  
PARCEL NO.: 03-10-207-010-0000

The parties of record before the Property Tax Appeal Board are Jozsef Vinczi, the appellant, by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 4,579**  
**IMPR.:    \$ 16,281**  
**TOTAL:    \$ 20,860**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one-story dwelling of frame and masonry construction containing 972 square feet of living area. The dwelling is 52 years old and is constructed on a concrete slab foundation. Features of the home include a fireplace and a one and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story frame or frame and masonry dwellings that are 51 or 52 years old. The comparable dwellings contain either 920 or 972 square feet of living area. None of the comparables have basements and one has central air conditioning. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from \$15.83 to \$16.75 per square foot of living area. The subject's improvement assessment is \$19.19 per square foot of living area. Limited data was submitted on three additional comparables. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of one-story frame and masonry dwellings that are 51 or 52 years old. The dwellings each contain 972 square feet of living area. Features include partial, unfinished basements and garages for each of the comparables. The board of review's evidence indicates the comparables are in average condition, while the subject is in poor condition. These properties have improvement assessments of either \$19.57 or \$19.63 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds that no weight was given to three of the appellant's comparables due to the lack of descriptive evidence. The parties submitted eight comparables with descriptive evidence. The Board finds the comparables submitted by the board of review were superior to the subject in foundation and condition. Thus, these comparables received reduced weight. None of the comparables submitted by the appellant had a basement, the same as the subject. These comparables were very similar to the subject in both size and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$15.83 to \$16.75 per square foot of living area. The subject's improvement assessment of \$19.19 per square foot of living area is above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
