

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ramesh Goyal  
DOCKET NO.: 07-26693.001-R-1 through 07-26693.002-R-1  
PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are Ramesh Goyal, the appellant, by attorney Stephanie Park, of Park & Longstreet, P.C. of Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

DOCKET NO	PARCEL NUMBER	LAND	IMPRVMT	TOTAL
07-26693.001-R-1	10-20-405-024-0000	4,761	16,297	\$21,058
07-26693.002-R-1	10-20-405-025-0000	5,276	16,297	\$21,573

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a multi-level dwelling of frame and masonry construction containing 1,743 square feet of living area. The dwelling is 38 years old and is located in Morton Grove, Niles Township, Cook County. The property is classified as a class 2-34 residential property under the Cook County Real Property Assessment Classification Ordinance. Features of the home include a partial basement finished with a recreation room, central air conditioning, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on twelve comparable properties described as multi-level masonry or frame and masonry dwellings that range in age from 23 to 49 years old. The comparable dwellings range in size from 1,582 to 2,023 square feet of living area. Eleven comparables have partial basements finished with recreation rooms and one comparable has a full unfinished basement. Eleven comparables have a garage ranging from 1-car to 2.5-car. Ten comparables have central air

conditioning and five comparables have a fireplace. The comparables have improvement assessments ranging from \$18.70 to \$21.50 per square foot of living area. The subject's improvement assessment is \$22.73 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$49,663 was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 1.5-story or multi-level frame or frame and masonry dwellings that range in age from 29 to 52 years old. The comparable dwellings range in size from 1,196 to 1,768 square feet of living area. Each comparable has a 2-car garage. Three comparables have central air conditioning. Two comparables have partial basements finished with a recreation room. One comparable has a full basement finished with a recreation room and one comparable has a crawl-space foundation. These properties have improvement assessments ranging from \$16.48 to \$18.50 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds a reduction is warranted.

The Board finds comparable #10 submitted by the appellant dissimilar in basement finish when compared to the subject and less weight was given. The Board finds comparable #4 submitted by the board of review dissimilar in size, design and basement foundation when compared to the subject and less weight was given. The Board finds comparables #1, #2, #3, #4, #5, #6, #7, #8, #9, #11 and #12 submitted by the appellant and comparables #1, #2 and #3 submitted by the board for review were more similar to the subject in design, basement foundation, and age. The comparables had improvement assessments that ranged from \$18.44 to \$21.50 per square foot of living area. The subject's improvement assessment of \$22.73 per square foot of living area is above the range established by the similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
