

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Rock
DOCKET NO.: 07-26766.001-R-1
PARCEL NO.: 18-07-206-024-0000

The parties of record before the Property Tax Appeal Board are Richard Rock, the appellant, by attorney Stephanie Park, of Park & Longstreet, P.C. of Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,693
IMPR.: \$33,534
TOTAL: \$42,227

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 2,069 square feet of living area. The dwelling is 37 years old. Features of the home include a partial unfinished basement and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on eight comparable properties described as one-story frame, masonry, or frame and masonry dwellings that range in age from 38 to 51 years old. The comparable dwellings range in size from 2,011 to 2,093 square feet of living area. Three comparables have partial basements, two of which are finished with recreation rooms. Five comparables have crawl-space foundations. Each comparable has one or two fireplaces and a 2-car or 2.5-car garage. Seven comparables have central air conditioning. The comparables have improvement assessments ranging from \$12.49 to \$15.14 per square foot of living area. The subject's improvement assessment is \$16.21 per square foot of living area. Based on this evidence,

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$42,227 was disclosed. The board of review presented descriptions and assessment information on four comparable properties described as one-story masonry dwellings that are 44 or 45 years old. The dwellings range in size from 1,836 to 2,006 square feet of living area. Two comparables have full unfinished basements and two comparables have partial unfinished basements. Each comparable has central air conditioning and a 2-car garage. Three comparables have a fireplace. These properties have improvement assessments ranging from \$18.01 to \$18.47 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparables #1, #2, #3, #4, #5, #7 and #8 submitted by the appellant dissimilar in basement foundation and/or finish when compared to the subject and less weight was given to these properties. The Board finds comparable #6 submitted by the appellant and the comparables submitted by the board of review were most similar to the subject in age and features. These comparables had improvement assessments that ranged from \$15.09 to \$18.47 per square foot of living area. The subject's improvement assessment of \$16.21 per square foot of living area falls within the range established by these similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the appellant

disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
