

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Steve Zakic
DOCKET NO.: 07-26811.001-C-1
PARCEL NO.: 17-28-434-033-0000

The parties of record before the Property Tax Appeal Board are Steve Zakic, the appellant(s), by attorney Brian P. Liston, of Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,616
IMPR: \$97,200
TOTAL: \$108,816

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 6,600 square foot parcel of land improved with a 118-year old, three-story, masonry, apartment building containing 21,444 square feet of building area and 12 apartment units. The appellant argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions on a total of three properties suggested as comparable to the subject and located within the subject's township. The data in its entirety reflects that the properties are improved with two or three-story, masonry, apartment buildings. The properties range: in age from 79 to 98 years; in size from 8,484 to 12,900 square feet of building area; in number of units from eight to 13; and in improvement assessments from \$4,672 to \$8,102 per apartment unit. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$162,154, or \$13,513 per apartment unit was disclosed. The board also submitted copies of the property characteristic printouts for the subject as well as raw sales data on seven properties. The sales occurred between February 2004 and July 2007 for prices ranging from \$895,000 to \$2,150,000 or from \$111,875 to \$179,167 per apartment unit. Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney argued that the subject is over assessed when compared to similar properties. The board of review's representative, Chris Beck, testified that the county assesses apartment buildings on a per unit basis.

After considering the evidence and reviewing the testimony, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule* 1910.65(b). Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has met this burden and that a reduction is warranted.

The appellant presented assessment data on a total of three equity comparables. The PTAB finds comparables these similar to the subject. The properties are improved with two or three-story, masonry, apartment buildings. The properties range: in age from 79 to 98 years; in size from 5,875 to 12,900 square feet of building area; in number of units from eight to 13; and in improvement assessments from \$4,672 to \$8,102 per apartment unit. In comparison, the subject's contains 12 units and has an improvement assessment of \$12,387 per apartment unit which is above the range of comparables. The PTAB gives little weight to the board of review's evidence as the data is merely raw sales data without any assessment information.

After considering adjustments and the differences in the comparables when compared to the subject, the PTAB finds the subject's per square foot improvement assessment is not supported and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
