

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vivian Morici
DOCKET NO.: 07-26926.001-R-1
PARCEL NO.: 14-29-207-046-0000

The parties of record before the Property Tax Appeal Board are Vivian Morici, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 15,033
IMPR.: \$ 81,355
TOTAL: \$ 96,388

Subject only to the State multiplier as applicable.

ANALYSIS

The record disclosed that the subject property consists of two dwellings sited on a single 3,000 square foot parcel. At hearing, the appellant's attorney indicated that the multi-family dwelling containing 4,037 square feet of living area is the subject of this appeal. The subject improvement consists of a 108-year-old, three-story multi-family dwelling of masonry construction with four full bathrooms, a full-unfinished basement and central air-conditioning. The second dwelling consists of a one and one-half story, 112-year-old, single-family dwelling of frame construction containing 1,603 square feet of living area.

The appellant, through counsel, appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the multi-family improvement. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of multi-story, multi-family dwellings of frame or masonry construction located within five blocks of the subject.

The improvements range in size from 3,831 to 4,695 square feet of living area and range in age from 98 to 118 years old. The comparables contain two or three full bathrooms and a finished or unfinished basement. Two comparables have a two-car detached garage. The improvement assessments range from \$14.11 to \$15.82 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total improvement assessment of \$81,355 was disclosed. Of the total improvement assessment, \$61,017 or \$15.11 per square foot of living area is allocated to the improvement at issue in this appeal. The board also submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with three-story, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,927 to 4,887 square feet of living area and range in age from 93 to 110 years old. The comparables contain three or four full bathrooms, a two-car detached garage and a full-finished or unfinished basement. The improvement assessments range from \$16.44 to \$16.46 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables three and four and the board of review's comparable one to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, age, amenities and location and have improvement assessments ranging from \$15.50 to \$16.46 per square foot of living area. The subject's per square foot improvement assessment of \$15.11 falls below the range established by these properties. The Board finds the four remaining comparables less similar to the subject in improvement size and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject's multi-family dwelling is inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
