

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Anastasios Sguros
DOCKET NO.: 07-27091.001-R-1
PARCEL NO.: 10-35-323-042-0000

The parties of record before the Property Tax Appeal Board are Anastasios Sguros, the appellant, by attorney Steven B. Pearlman, of Steven B. Pearlman & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,591
IMPR.: \$ 65,908
TOTAL: \$ 74,499

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 5,966 square foot parcel improved with a 20-year-old, two-story, single-family dwelling of masonry construction containing 3,017 square feet of living area and located in Niles Township, Cook County. Features of the residence include two and one-half bathrooms, a full-unfinished basement, central air-conditioning, a fireplace and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of masonry or frame and

masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,592 to 3,280 square feet of living area and range in age from 54 to 59 years old. The comparables contain two full bathrooms and a finished or unfinished basement. Two comparables have air-conditioning, one comparable contains a fireplace and two comparables have a one-car or two-car attached garage. The improvement assessments range from \$18.26 to \$18.44 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$74,499. The subject's improvement assessment is \$65,908 or \$21.85 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry construction located within one-quarter mile of the subject. The improvements range in size from 2,108 to 3,229 square feet of living area and range in age from one to 58 years old. The comparables contain two, two and one-half or three and one-half bathrooms, a full-finished or unfinished basement, central air-conditioning, a fireplace and a two-car garage. The improvement assessments range from \$18.22 to \$22.36 per square foot of living area.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables two and three and the board of review's comparables one and two to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, design, amenities and location and have improvement assessments ranging from \$18.28 to \$22.36 per square foot of living area. The subject's per square foot improvement assessment of \$21.85 falls within the range established by these properties. The Board finds the two remaining comparables less similar to the subject in exterior construction and/or improvement size and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
