

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ronald Zitek
DOCKET NO.: 07-27116.001-R-1
PARCEL NO.: 18-16-205-008-0000

The parties of record before the Property Tax Appeal Board are Ronald Zitek, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 14,359
IMPR.: \$ 35,364
TOTAL: \$ 49,723

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 2665 square feet of living area. The dwelling is nine years old. Features of the home include a full, unfinished basement, central air conditioning, a fireplace and a three and one-half-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story masonry or frame and masonry dwellings that are one year old. The comparable dwellings range in size from 2638 to 3189 square feet of living area. Features include full basements, one of which is finished, central air conditioning and fireplaces. The appellant did not include any data concerning garages for the comparables. According to the map provided by the appellant, they are located approximately three-fourths of a mile or more from the subject. The comparables have improvement assessments of \$8.43 or \$8.99 per square foot of living area. The subject's

improvement assessment is \$13.27 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame and masonry dwellings that range in age from seven to 11 years old. The dwellings range in size from 2842 to 3030 square feet of living area. Features include full, unfinished basements, central air conditioning, fireplaces and two-car or two and one-half-car garage. Two are located on the same block as the subject, and the other two are within one-fourth of a mile. These properties have improvement assessments ranging from \$13.00 to \$16.24 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparable #3 should be given reduced weight in the Board's analysis because it is of a different exterior construction than the subject. The remaining comparables were similar to the subject in most property characteristics, but the Board finds the comparables submitted by the board of review were most similar to the subject in location. Due to their similarity to the subject in location, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$13.00 to \$16.24 per square foot of living area. The subject's improvement assessment of \$13.27 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the

differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
