

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Josef Kadzielawski
DOCKET NO.: 07-27124.001-R-1
PARCEL NO.: 03-36-202-016-0000

The parties of record before the Property Tax Appeal Board are Josef Kadzielawski, the appellant, by attorney Scott Shudnow of Shudnow & Shudnow, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,257
IMPR.: \$22,863
TOTAL: \$30,120

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of 15,120 square feet of land improved with a 68-year old, two-story, frame construction, single-family dwelling containing 2,832 square feet of living area. The property is located in Mount Prospect, Wheeling Township, Cook County.

The appellant contends that the market value of the subject property is not accurately reflected in the property's assessed valuation as the basis of this appeal.

In support of the market value argument, the appellant submitted an appraisal estimating the subject property had a market value of \$300,000 as of January 01, 2007. The appraiser developed the sales comparison approach to value to estimate a value for the subject of \$300,000. The appraiser calculated the subject's improvement size at 2,832 square feet of living area. The appraiser utilized three comparable sales that sold from August, 2005, through May, 2006, for prices that ranged from \$330,000 to \$395,000, or from \$112.50 to \$156.31 per square foot of living area, land included. The properties are improved with one-story

and two-story cedar or masonry, single-family dwellings. The dwellings range in age from 45 to 62 years and in size from 2,363 to 2,977 square feet. After making adjustments to the properties, the appraiser estimated the subject's market value to be \$300,000 as of January 01, 2007.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$49,994 was disclosed. The subject's assessment reflects a market value of \$497,948 using the 2007 three-year median level of assessment for Class 2, residential property as determined by the Illinois Department of Revenue of 10.04%.

The board of review submitted four equity comparables. The properties were improved with two-story, frame construction, single-family dwellings. They ranged in age from 65 to 77 years old; in size from 2,214 to 2,829 square feet of living area; and in improvement assessments from \$15.00 to \$17.73 per square foot of living area. Using the square footage of 2,832 square feet, the subject's improvement assessment is \$15.09 per square foot of living area. The board of review indicated comparable #4 sold in July, 2004 for a price of \$504,000 or \$178.15 per square foot of living area, land included. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant summarized the key points and challenged the board of review's comparables.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code Sec. 1910.65(c). Having considered the evidence presented, the Property Tax Appeal Board finds that the evidence indicates a reduction is warranted.

In determining the fair market value of the subject property, the Property Tax Appeal Board finds the best evidence to be the appellant's appraisal wherein the subject's market value was estimated to be \$300,000. The appellant's appraiser utilized the sales comparison approach to value in determining the subject's market value using recent sales, adjustments were made for quality of construction, condition, above grade room count, gross living area, basement and finished rooms below grade, garage size, patio and upgrades.

The Board finds the board of review submitted one comparable sale, however, the date of the sale detracts from the weight given to this evidence. Therefore, the Property Tax Appeal Board finds that the subject property had a market value of \$300,000 as of January, 01, 2007. Since the market value of the subject has been established, the 2007 three-year median level of assessment as established by the Illinois Department of Revenue for Cook County Class 2, residential property of 10.04% shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
