

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gary Davis  
DOCKET NO.: 07-27265.001-R-1  
PARCEL NO.: 03-22-209-004-0000

The parties of record before the Property Tax Appeal Board are Gary Davis, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$14,414  
**IMPR.:** \$76,842  
**TOTAL:** \$91,256

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 20,020 square foot parcel of land improved with a 15-year old, two-story, frame, single-family dwelling. The improvement contains 5,437 square feet of living area, and four full and one-half baths. Additional features include air conditioning, a fireplace, a full finished basement with a formal recreation room, and a three-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of four properties suggested as comparable. The properties are improved with two-story, frame, masonry, or frame and masonry, single-family dwellings. The properties range in age from 3 to 15 years; contain from 5,642 to 8,241 square feet of living area with three and one-half to five baths. The improvement assessments range from \$7.55 to \$10.02 per square foot of living area. The subject's improvement assessment is \$14.13 per square foot of living area. The properties also

contain: air conditioning, one fireplace, full or partial finished or unfinished basements, and three to four-car garage area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$76,842 or \$14.13 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable and located within the subject's neighborhood, two of which are within one quarter mile of the subject. The properties are improved with two-story, masonry, single-family dwellings. They range: in age from 4 to 18 years; in size from 5,033 to 6,640 square feet of living area; with three and one-half to four and one-half baths. The properties also include full finished basements with a formal recreation room, air conditioning, one or two fireplaces, and two and one-half to four car garage areas. The properties have improvement assessments ranging from \$13.07 to \$15.21 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In addition, the board's analysis indicated that the subject as well property #3 were accorded a deluxe condition ranking by the assessor's office while property/properties #1 and #2 were accorded an average condition without further explanation. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of seven properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #3 and #4 and the board of review's comparable #3 most similar to the subject in improvement size, design, and age. These comparables ranged in improvement assessments from \$10.01 to \$15.21 per square foot. The subject's improvement assessment at \$14.13 per square foot of living area is within the range established by these comparables. Further, the Board accorded diminished weight to the remaining properties due to a disparity in improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated

that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
