

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Suzette Bross-Bulley
DOCKET NO.: 07-27268.001-R-1
PARCEL NO.: 17-04-224-027-0000

The parties of record before the Property Tax Appeal Board are Suzette Bross-Bulley, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$34,538
IMPR: \$117,180
TOTAL: \$151,718

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 2,947 square foot parcel of land improved with a 128-year old, two-story, masonry, single-family dwelling. The improvement contains 3,348 square feet of living area, four and one half baths, air conditioning, three fireplaces, a full basement finished with a formal recreation room, and a two car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of eight properties suggested as comparable. The properties are located from adjacent to the subject to two blocks distance from the subject. The properties are two or three-story masonry or frame and masonry, single-family dwellings. They range: in bathrooms from one full and three half baths to four full and one half baths; in age from 115 to 128 years; in size from 3,274 to 3,647 square feet of living area; and in improvement assessment from \$22.55 to \$36.92 per square foot of living area. The subject's improvement assessment is \$60.87 per square foot.

The properties also contain: air conditioning for one property, one to three fireplaces for four properties, full or partial, finished or unfinished basements for five properties, and garage area for six properties. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$203,808 or \$60.87 per square foot of living area was disclosed. In support of the subject's assessment, the board of review did not present descriptions and assessment information on any properties suggested as comparable. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant's attorney submitted a statement asserting that the board of review did not submit comparable properties for review while they submitted eight; four of which are almost identical to the subject. The appellant's attorney further argued that their comparable selection consisted of properties that were within one quarter mile of the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The appellant presented a total of eight properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #2, #7 and #8 most similar to the subject in improvement size, design, proximity, exterior construction, amenities and age. These comparables ranged in improvement assessments from \$32.53 to \$36.92 per square foot. The subject's improvement assessment at \$60.87 per square foot is above the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is not supported and a reduction in the improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
