

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Mazan
DOCKET NO.: 07-27334.001-R-1
PARCEL NO.: 07-23-212-034-0000

The parties of record before the Property Tax Appeal Board are Paul Mazan, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,891
IMPR.: \$ 75,742
TOTAL: \$ 92,633

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 12,420 square foot parcel of land improved with a 10-year old, two-story, masonry, single-family dwelling containing 4,016 square feet of living area, two and two-half baths, air conditioning, a fireplace and a full, unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of the appeal.

In support of the equity argument, the appellant submitted information on a total of six properties suggested as comparable and located within two blocks of the subject. The properties are described as two-story, masonry or frame and masonry, single-family dwellings with between two and one-half and four baths, air conditioning, a fireplace, and a full basement with one finished. The properties range: in age from 10 to 16 years; in size from 3,885 to 4,720 square feet of living area; and in improvement assessments from \$10.07 to \$17.75 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$75,742 or \$18.86 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on a total of four properties suggested as comparable and located within the subject's neighborhood. The properties are described as two-story, masonry, single-family dwellings with two and one-half or two and two-half baths, air conditioning, one or two fireplaces, and a full basement with one finished. The properties range: in age from nine to 16 years; in size from 3,924 to 4,458 square feet of living area; and in improvement assessment from \$18.61 to \$19.23 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of 10 properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1, #3, #4, and #6 and the board of review's comparables #1, #2, and #3 from are the most similar to the subject in design, size, amenities, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These properties are masonry or frame and masonry, two-story, single-family dwellings located in the subject's neighborhood. The properties range: in age from nine to 16 years; in size from 3,885 to 4,262 square feet of living area and in improvement assessments from \$10.07 to \$19.23 per square foot of living area. In comparison, the subject improvement assessment of \$18.86 per square foot of living area is within the range of these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
