

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Papadia
DOCKET NO.: 07-27374.001-R-1
PARCEL NO.: 03-32-123-019-0000

The parties of record before the Property Tax Appeal Board are John Papadia, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,656
IMPR.: \$48,707
TOTAL: \$56,363

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 6,600 square foot parcel of land improved with a 22-year old, two-story, frame, single-family dwelling. The improvement contains 2,056 square feet of living area, and two and one-half baths. Additional features include air conditioning, one fireplace, a full unfinished basement, and a two-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of four properties suggested as comparable. The properties are located over one mile distance from the subject. The properties are improved with two-story, frame or frame and masonry, single-family dwellings. The properties range in age from 28 to 30 years; contain from 2,269 to 2,358 square feet of living area with one and one-half to two and one-half baths. The improvement assessments range from \$15.08 to \$15.98 per square foot of living area. The subject's improvement assessment is \$23.69 per square foot of living area.

The properties also contain: air conditioning, one fireplace, partial unfinished basements, and two or two and one-half-car garage areas. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$48,707 or \$23.69 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable and located within the subject's neighborhood, one of which is within one quarter mile of the subject. The properties are improved with two-story, frame or frame and masonry, single-family dwellings. The properties range in age from 38 to 53 years; in size from 2,010 to 2,304 square feet of living area and with two and one-half baths to two full and two half baths. The properties also include full finished or unfinished basements, air conditioning for one property, one fireplace for one property, and a two garage area. The properties have improvement assessments ranging from \$23.80 to \$27.24 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of seven properties suggested as comparable to the subject. The PTAB finds the board of review's comparables most similar to the subject in improvement size, design, and proximity. These comparables ranged in improvement assessments from \$23.80 to \$27.24 per square foot. The subject's improvement assessment at \$23.69 per square foot of living area is within the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in property location. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
