

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Heartland Automotive
DOCKET NO.: 07-27417.001-C-1
PARCEL NO.: 03-27-307-028-0000

The parties of record before the Property Tax Appeal Board are Heartland Automotive, the appellant, by attorney Michael D. Gertner, of Michael D. Gertner, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 56,731
IMPR.: \$ 36,369
TOTAL: \$ 93,100

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 17,564 square foot parcel of land improved with a 22-year old, one-story, masonry, commercial building used as an oil change facility. The improvement contains 1,984 square feet of building area.

The appellant argued that the market value of the subject property is not accurately reflected in the property's assessed valuation as the bases of this appeal.

In support of the market value argument, the appellant submitted an appraisal report of the subject property with an effective date of January 1, 2007. The appraisers estimated a market value for the subject of \$245,000, based upon development of the sales comparison approach to value. The appraisers inspected the subject on November 6, 2007. They developed a highest and best use as vacant, for commercial development, while the highest and best use as improved was its current use.

As to the subject's history, the appraisal stated that the subject sold on March 3, 2006, for a price of \$645,500. The appraisal also indicated that personalty, fixtures, equipment and

machinery were included in this sale price without a separate allocation for the real estate value. For these reasons, the appraisers discounted the sale in their analysis.

The appraisers developed a sales comparison approach using four sale comparables. The properties sold from January, 2004, to April, 2007, and ranged in building size from 4,000 to 9,000 square feet of building area. After making adjustments to the comparables, the appraisers opined a market value for the subject of \$245,000. Based upon this evidence, the appellant requested a reduction in market value.

At hearing, the appellant's attorney stated that he had no personal knowledge of the subject's 2006 sale.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$114,258. The subject's assessment reflects a market value of \$300,678 or \$151.55 per square foot using the Cook County Ordinance level of assessment for commercial class 5A property of 38%. The board's memorandum stated that the subject sold in March, 2006, for a value of \$645,500 or \$325.35 per square foot and attached a copy of the Warranty Deed reflecting this data. The Deed reflects that the subject was sold to four different corporations while listing the percentages of ownership for each.

In support of the subject's market value, raw sales data was submitted for 5 properties via Costar Comps printouts. The data from the CoStar Comps service sheets reflect that the research was licensed to the assessor's office, but failed to indicate that there was any verification of the information or sources of data. The properties were identified as retail/auto repair facilities which ranged in unadjusted sale prices from \$108.75 to \$325.00 per square foot. They ranged in building size from 1,496 to 4,000 square feet of building area.

Moreover, the board of review's memorandum stated that the data was not intended to be an appraisal or an estimate of value and should not be construed as such. The memorandum indicated that the information provided therein had been collected from various sources that were assumed to be factual and reliable; however, it further indicated that the writer hereto had not verified the information or sources and did not warrant its accuracy. As a result of its analysis, the board requested confirmation of the subject's assessment.

In rebuttal at hearing, the appellant's attorney asserted that the subject property was solely an oil change facility and not a gas station. He also pointed out that the board of review had submitted raw, unadjusted sales data.

After considering the arguments and reviewing the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the Board concludes that the appellant has met this burden and that a reduction is warranted.

The Board finds the best evidence of the subject's market value to be the appellant's appraisal, which utilized one of the three traditional approaches to value in developing the subject's market value. The Board also finds the appraisal to be persuasive for the appraisers: have experience in appraising and assessing property; personally inspected the subject property; estimated a highest and best use for the property; and utilized market data in undertaking the sales comparison approach to value, while making adjustments to the comparables where necessary.

In contrast, the Board finds that the board of review submitted raw, unadjusted sales data, while not warranting the accuracy or reliability of this data. Moreover, the Board finds that the submission of the subject's Warranty Deed does not indicate whether the property sold in an arm's length transaction or whether there was personalty included in the sale.

Therefore, the Board finds that the subject property contained a market value of \$245,000. Since the market value of the subject has been established, the Cook County Ordinance level of assessment for Class 5A, commercial property of 38% will apply. Therefore, the Board finds that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
