

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sharad Patel
DOCKET NO.: 07-27583.001-R-1
PARCEL NO.: 04-20-110-005-0000

The parties of record before the Property Tax Appeal Board are Sharad Patel, the appellant, by attorney Mitchell L. Klein, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$17,280
IMPR: \$89,769
TOTAL: \$107,049

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of masonry construction containing 5,262 square feet of living area. The dwelling is 10 years old. Features of the home include a full, unfinished basement, central air conditioning, a fireplace and a 3-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as 2-story stucco, masonry, or frame and masonry dwellings that range in age from 14 to 24 years old. The comparable dwellings range in size from 5,122 to 7,357 square feet of living area. All comparables feature full or partial basements, two of which are finished. All have central air conditioning, fireplaces and 2 or 3-car garages. The comparables have improvement assessments ranging from \$13.75 to \$15.63 per square foot of living area. The subject's improvement assessment is \$17.06 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on two comparable properties consisting of 2-story masonry dwellings both 24 years old. The dwellings contain 5,122 and 6,684 square feet of living area. One has a partial basement and one has a full basement, both unfinished. Both have fireplaces, central air conditioning and 2 or 3-car garages. These properties have improvement assessments of \$16.90 and \$17.80 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds none of the comparables submitted by the either party were a close match to the subject in all areas. Comparable #2 submitted by the appellant and comparable #2 submitted by the board of review were much larger than the subject. Comparables #1 and #3 submitted by the appellant featured exterior construction different from the subject. Therefore, these comparables received less weight in the Board's analysis. The Board finds comparable #1 submitted by the board of review was most similar to the subject in size, style, exterior construction and features. Due to its similarities to the subject, this comparable received the most weight in the Board's analysis. This comparable's improvement assessment was \$16.90 per square foot of living area but it was more than twice as old as the subject. The subject's improvement assessment of \$17.06 per square foot of living area is slightly above this comparable.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the appellant disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence

that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is equitable and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
