

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Herley  
DOCKET NO.: 07-27616.001-C-1  
PARCEL NO.: 13-26-312-031-0000

The parties of record before the Property Tax Appeal Board are Robert Herley, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 16,835  
**IMPR.:** \$ 82,734  
**TOTAL:** \$ 99,569

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 7,288 square foot parcel of land improved with a two-story, low rise apartment building containing 9,002 square feet of building area. It is located in Jefferson Township, Cook County, and is classified under the Cook County Real Property Assessment Classification Ordinance as Class 3-14 with a level of assessment of 22% as designated for Class 3 property.

The appellant's grid sheet states that the subject contains 1,565 square feet of building area, however, evidence submitted by both parties indicates that the subject contains 9,002 square feet of building area.

The appellant, via counsel, submitted limited evidence claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant submitted a grid sheet detailing assessment data for three suggested comparable properties. No building square footage or descriptive data was provided for comparable #3. The remaining two comparables have improvement assessments of \$49,318 and \$81,403

or \$6.18 and \$12.60 per square foot of building area. Based on the evidence presented, the appellant requested a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$82,734, or \$9.19 per square foot of building area. The board also submitted a memorandum authored by Matthew Caplis, Cook County Board of Review Analyst, a black and white photograph of the subject, the subject's property record card, as well as raw sales data on five apartment properties suggested as comparable. The sales occurred between May 2005 and August 2009 for prices ranging from \$310,000 to \$1,100,000 or from \$38,750 to \$125,000 per unit. These properties are all located within a five mile radius of the subject. The board's memo indicated that these sales have not been adjusted for market conditions such as time, location, age, size and other related factors. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was based on unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Having considered the evidence presented, the Board concludes that the appellant has not met this burden and that a reduction is not warranted.

The appellant presented assessment data on a total of three equity comparables, one of which was missing building square footage data. Accordingly, the Board is unable to determine their comparability to the subject property. Additionally, after correcting the appellant's calculations, one of the two equity comparables provided by the appellant is assessed at a higher value per square foot than that of the subject property. As such, the appellant has not met the burden of clear and convincing evidence. Furthermore, the Board gives little weight to the board of review's evidence as the data is merely raw sales data that has not been adjusted for market conditions including time, location, age, size, land to building ratio, parking, zoning and other related factors and fails to address the appellant's equity argument.

After considering the evidence submitted, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
